1. It was rumored among the Greek Communists in Braila that Greek Communists were to be sent from Poland to Rumania.
2. On 8 February 1951, 500 Greek Communists, mostly aged men and women, were moved from Pitesti to Botsani. It is not known whether the buildings evacuated were used to receive the Greek Communists coming from Poland, or whether they were used to house the school for young Communists which was opened in Pitesti in February 1951. It is not known if this school, which is for both sexes, is a military or technical school.
